

EIGHTEENTH YEAR NO. 1691.

CALGARY, ALBERTA, THURSDAY, NOVEMBER 14, 1901.

SUBSCRIPTION \$1.50 PER YEAR.

TELEGRAMS.

The Happenings of the Past Week.

Vancouver, Nov. 11.—The McDonnell hotel, Dawson, was partly destroyed by fire on October 11. The loss is estimated at \$20,000. The hotel was owned by Mrs. Alexander McDonald, wife of the Klondike King, who carried no insurance at the time of the fire.

The firemen's efforts confined the fire to the third story, but the whole building, with the furniture and other contents, were damaged by water and smoke.

Three whisky distillers and their plants, with a large quantity of liquor, have been seized by Dawson officers.

London, Nov. 11.—Sensational telegrams from New York have appeared in the last few days announcing the discovery by a Drucker of some marvellously rich gold fields at Horowitz, near Klondike and the Caribou district. The location of the latest find is somewhat indefinite and British Columbia on this side are inclined to think that the reports are exaggerated. This opinion is held by William Walter, agent general for British Columbia, who, in an interview with a press representative, said:

"The mining districts about Horowitz have been steadily producing 75% and it is not likely that Mr. Drucker's discovery of gold is in any way the new Klondike he claims for it."

There is naturally a possibility of the find panning out well, but it is just as well for the seekers to keep calm and not be rashly entering into speculations for immediate fortunes on the strength of a Lafan telegram.

The Horowitz district is extremely awkward to get at, as the nearest railway station is a week's drive from the seat of the gold operations.

Carlson, as a mining expert, has been to the district and there is little doubt that the soil in the neighborhood is auriferous.

Carl J. Clough Drucker, who is formerly member of parliament for Northampton, is the son of an American banker and inherited fortune of \$1,000,000, who he went through in a few years by unsuccessful speculations, some in connection with the notorious Hooch.

Curiously enough Mr. Drucker was to have appeared before the registrar for his public examination in bankruptcy last at a week's delay announcement regarding the discovery of the new gold fields. The examination has been adjourned until December 12, owing to the absence of the delinquent, who is said to be under treatment in Switzerland, his health having broken down through the severity of the climate of the Caribou.

Pittston, Pa., Nov. 12.—A contest between a newspaper reporter and an American Indian in which the reporter and his friend made up the combination, occurred in this city today. It was a test of grit and the reporter won.

"Dr. Rose, an Indian medicine man, was arrested in this city a few days ago charged with selling a box root, which he was representing as a wonderful Indian discovery."

Earlier today the Indian met John McDevitt, a reporter on the Wilkes-Herald, in a cafe. He told McDevitt he was going to look down from the hands the reporter a pistol, and taking one himself he pointed to a revolver in feet and told the reporter to take it. McDevitt called on him to fight with his fists and the Indian agreed.

The reporter, who is an athlete, silenced the "medicine man" in a business man.

Chicago, Nov. 12.—After a narrow race, the city council has passed an ordinance requiring the Illinois Central, the Lake Shore & Michigan Southern, the Rock Island, the Western Union, and the Chicago & North Western to be for some time city editor of the Chicago Tribune, the Baltimore and the Detroit but returned to the city a track.

Billings, Nov. 12.—David Connor, ration of 16 miles of tracks within month.

at years at an estimated cost of \$1,000,000.

Vancouver, Nov. 12.—The City of Tacoma, on an 18-mile track, left November 12 on the way to Skagway. The passengers were panic-stricken and tried to crawl into the lifeboats. Men were lowered in the darkness and found a big hole in the ship's hull, barely above the water line. The passengers were then quieted.

Captain Olsen would take no chances but headed the steamer for Douglas Island, where he transferred the passengers to the steamer Senator. It was only good luck that saved the vessel and passengers from the fate of the island.

Grand Forks, N. D., Nov. 12.—An early hour this morning the ice was all wrought up over the outside of R. P. Allen, one of the leading merchants of that place, who has been in business there for 18 years, and who has always been held in high esteem. Mr. Allen had been drinking quite heavily for the past week or 10 days.

London, Nov. 12.—Violent wind, rain and snow storm are reported from all the coast of the United Kingdom. A fierce gale is blowing in the channel and mountains now are running. No less than six small vessels within sight of the coast have been lost, and the life boats are vainly attempting to go to their rescue.

A rocket apparatus has been sent to the South Foreland where an admiralty vessel is on duty. The rocket is being used to fire the crew clinging to the rigging.

Several vessels have been damaged and tugs are rescuing craft which are driven ashore by the waves.

At other channels ports there have been some exciting scenes. Ships were driven ashore by the waves.

The steamer Catoon collided with the British ship Loch Vennachar, which was on the coast of the Thames, the latter however the crew were saved.

Wild weather prevails over the lake district. The first snow is falling on the Western Highlands.

The seas are so high off the coast that shipping has been stopped. The river traffic is partially stopped and hundreds of men are idle. There have been a number of wrecks on the Sunderland coast.

San Francisco, Nov. 12.—Jas J. Jeffries did his little grumblings work today on Friday, but he was not very much in the mood to fight with Gus Hubbs on Friday, but he was not very much in the mood to fight with Gus Hubbs on Friday, but he was not very much in the mood to fight with Gus Hubbs on Friday.

Vancouver, Nov. 12.—Lieutenant Governor Joly has intervened and has requested the premier to fill up the vacancy in the cabinet and to meet the house at the usual time.

A big bid is being made for votes by the government. The government has offered a \$20,000 grant to Point Elsie bridge in Victoria, where the next war will be fought.

Application for a grant for this purpose was refused by the government at the last session, none being stronger against it than the premier.

A citizens' meeting was held last night in Victoria protesting against the action of the government in not issuing a writ for an election to fill the vacancy. A resolution of condemnation was passed and the premier, formerly a government man, was mentioned in his remarks against the premier. A resolution was also passed asking the government to hold elections protesting against the government.

South, Curtis, Fallow and Gifford were delayed on the steamer by a storm on the Gulf of Georgia.

Seattle, Nov. 12.—The steamer Albatross arrived from Seattle this morning with 113 passengers and \$250,000 in gold. She was the last boat to leave Seattle for the northern point and brought down many prominent men.

The reported meeting the help of the Albatross has been passed at the Division and water. It was said that the passengers suffered many hardships and that the Albatross was a very good boat. The measure provides for the election of a new mayor.

The loss as announced by Messrs A. and H. Goldstein, proprietors, is fully covered by insurance. They also say the work of repairing the building will begin as soon as the architects have finished their investigations.

The fire was one of those peculiar ones, for which there seems hardly any explanation, though it is generally believed it was due to spontaneous combustion.

One of the peculiar incidents in connection with the fire is that the male officer on the first floor was entered late Sunday night, or early Monday morning and the safe ransacked after being forced. Entrance was gained through the rear of the building. Insurance policies, contracts and considerable money were taken by the burglar, who, it is believed, were either professionals or parties thoroughly familiar with the surroundings.

London, Nov. 12.—Lord Kitchener is a despatch from Pretoria, dated Monday, November 11, presents his views on the situation in the north-eastern part of the Orange River. He says that the Boers have recently been called to the aid of the British army and that the British are now moving to dispossess them. The supply of good stock was about 12,000 in all. The Boers were captured and 45 killed.

London, Nov. 12.—Sudden orders were received at Aldershot last night for the cavalry to be ready to move at once. Embarkation is to take place about the middle of December, and all men are to be recalled from furlough at once. No horses are to be taken, and each regiment is to be divided into two columns. The Guards go in three separate squadrons (1,200 in all). HORSES FOR EUROPE

Canada Must Look to Her Legions. England is the best paying market for Canadian horses of high quality. The horse or low grade animal has been "electrocuted" in Europe.

No papers or trotters need apply. It costs no more to feed a good colt than a bad one. In 1877 Colonel James Jennings took the Prince of Wales to the Canadian horses were admirable animals, sound and capital jumpers.

Captain Mitchell, Colonel Anstruther, master of the Pike bounds and many of the horses of the same quality, and purchased them freely at \$100 to \$200 each.

Such well known judges are not purchasers now, as with very few exceptions the horses sent over are not as good as they were 20 years ago.

Through not using the best blood "blocks" or compact good looking English thoroughbreds or hackneys the Canadian arrivals are relegated to the rank of slaves in the yards of pedlars up, bringing from \$100 to \$140 and leaving the farmer from the horse.

Instead of breeding drivers they must raise as they can the old country horses which can be ordinarily used for riding and driving.

The thoroughbred will do this, and as is demonstrated in France, in the country of the low class riding stock.

On the authority of Mr. Walter Gilbey, Bart., one of the most prominent breeders in England and in Canada, where he owns large estates.

Members Withers, the well known horse dealer, and breeders, were the first to appreciate Canadian horses, and attended the first horse fair of 500 hunters and match pairs.

At the late Joseph Grand, the class of horse, although of a lighter type, is thus described in one of the many advertisements of the country sales of horses now being held.

"The animals are all weight carriers, ranging up to 14 stone (98 lbs.). One being 'Rundie' a gelding, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92,
